

## **BIO DATA: GRAHAM CLEVERLY**

Graham Cleverly is an experienced Independent Environmental Consultant, based in the UK. He has a Masters degree (Distinction: 2005) in Water, Energy and the Environment from a UK University and is active in the fields of water and sanitation development, private sector participation (PSP), economic and quality regulation, independent performance auditing and promoting good governance.

He has extensive International work experience in the water and sanitation development/ reform sector in Africa, Eastern and Central Europe, the Balkans and South East Asia.

He was a Director with Parkman Limited, an international engineering consultancy with extensive water and sanitation experience in Nigeria from 1992 to 1999 and lead a wide variety of donor-funded projects for the public and private sector in Nigeria between 1978 and 1982 and later in 1999/2000

From 2004 to 2009 he was retained as one of three part-time IRM roster experts by the European Bank for Reconstruction and Development (EBRD) under the Independent Recourse Mechanism (IRM) for the investigation of complaints about Bank-funded projects. He has carried out compliance and mediation activities recently in connection with the IRM in Azerbaijan and Georgia.

He has practical, worldwide development experience in the field of environment including policy development, Institutional strengthening, procurement, private sector participation, regulation and technical audits, all requiring high levels of integrity and professionalism.

He is currently a registered Deployable Civilian Expert Infrastructure expert for the UK Government's Stabilisation Unit Civilian Stabilisation Capacity (CSC) managed by DFID. He had been engaged in Kosovo since 2005 on several activities associated with the introduction/ consolidation of good governance independence and transparency in the water sanitation and solid waste sectors, working closely with the Water and Waste Regulatory Office established in 2004 under UN auspices. More recently he has been in charge of Institutional Strengthening activities for the Kosovo Institute of Public Health, on a project funded by the European Commission.

He gained the UK Mediation Practitioner's Certificate in 2008.

He maintains a professional interest in large dams and has been a registered Reservoir Supervising engineer with DEFRA since 1985 to the present.

English is his mother tongue and he speaks reasonable French, Spanish and Russian.
